[Download](#)

Free, built on open-source

Click on the .exe file you download to start the installer.

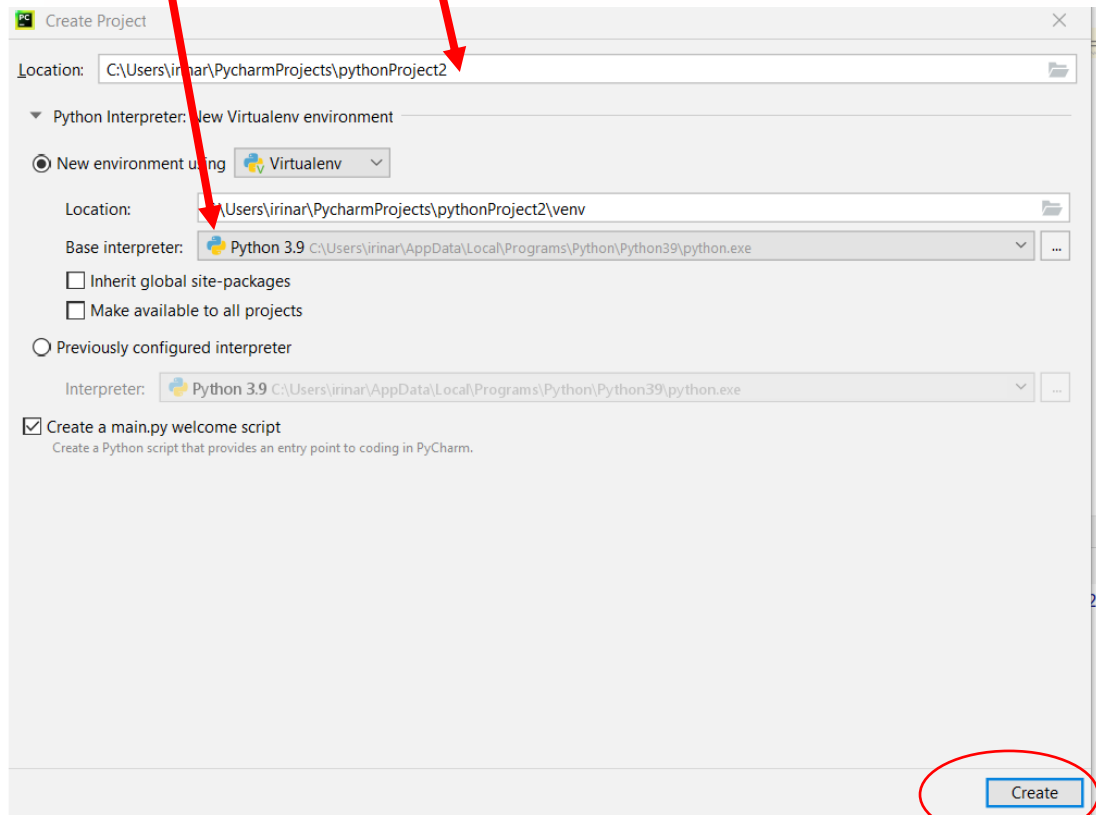

Click "Finish"

Start PyCharm.

- Select “New Project”
- Choose the folder and give a name to your project
- Select python interpreter

Install Packages

- Chose “Terminal” at the bottom of the PyCharm
- Type “pip install opencv-contrib-python”. Note: it might take a few minutes to install the package
- Type “pip install matplotlib”
